# TEXTILE WASTE DISPOSAL

## DROP-OFF

Sorted textile waste: R0,50/kg

Unsorted textile waste: R0,80/kg

*Email us on [hello@rewoven.co.com](mailto:hello@rewoven.co.com) if you want to drop-off your textile waste. Please note we will need to first confirm the fabric types and if they are recyclable.*

## DE-BRANDING

Safe disposal of branded garments and uniforms. We safely dispose of the logo on the garment and then recycle the remaining panels.

*Email us on [hello@rewoven.co.com](mailto:hello@rewoven.co.com) if you want to drop-off your textile waste. Please note we will need to first confirm the fabric types and if they are recyclable.*

## ONSITE SORTING

We place a team of sorters on your manufacturing site to separate the recyclable and non-recyclable textile waste. The recyclable textile waste is removed for recycling.

Email us on [hello@rewoven.co](mailto:hello@rewoven.co) if you want to drop-off your textile waste. Please note we will need to first confirm the fabric types and if they are recyclable.

# END-OF-ROLL FABRIC

End-of-roll or “last of its kind” fabric is left-over fabric from a big or custom order that a manufacturer/designer did not use. Instead of this excess going to waste, we source this fabric from various manufacturers and provide it straight to you.

This fabric is perfect for individuals and designers who are looking to source fabric at a reasonable price. We know that for many designers, it is a struggle to source fabric locally, given that current minimum order quantities in the industry are so high. In our bid to make life easier for you, our minimum quantity order starts at 1 meter for our end-of-roll offering.

Price: R 50 / meter
